| Step 2.....        | 10 |

# Registration

To sign up, you need to go to the [www.timau.space](http://www.timau.space) and press the “Create account” button.

New Here? [Create Account](#)

Then enter your E-mail. Now you need to agree with the “Terms&Conditions”. Then click "Submit"

The screenshot shows a registration form titled "Create an Account". Below the title, there is a link "Already have an account? Sign in here". The form includes an "Email" label above a text input field. Below the input field is a checkbox labeled "I Agree Terms and conditions.". At the bottom of the form is a blue "Submit" button.

After that you will see this page. You need to check your mail. The link comes immediately. Usually it takes no more than a couple of minutes.

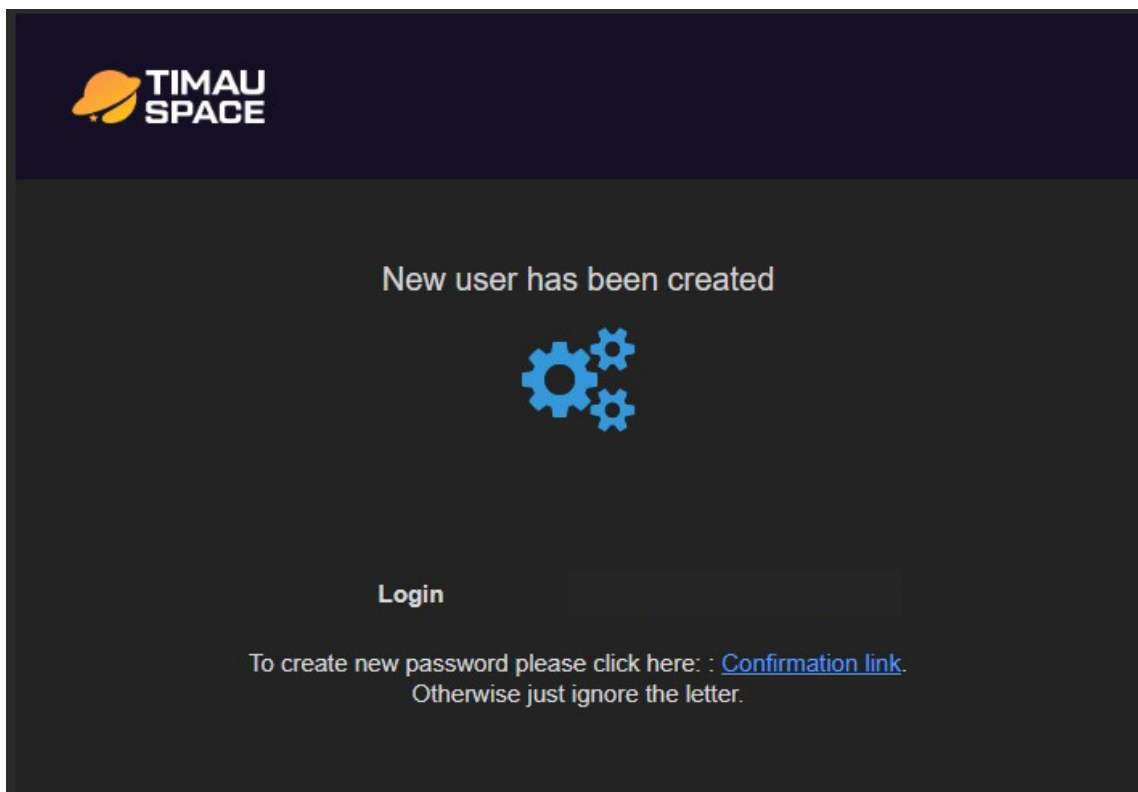

## Registration

Thank you!

New user has been successfully created. Check your email and follow the link to complete your registration. Your link is valid for 24 hours.

[Homepage](#)

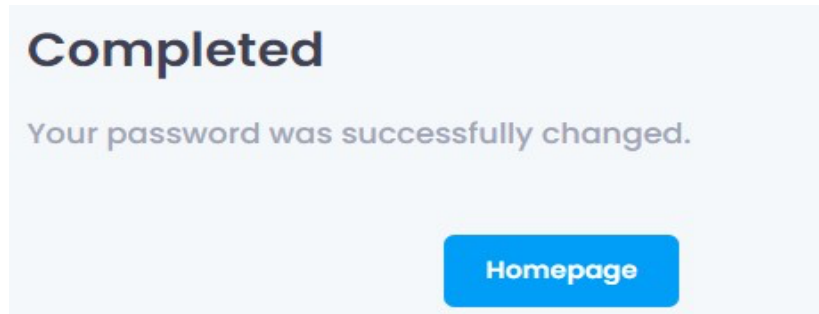

The E-mail you receive looks like this. You will be informed that a new user with your login has been created. Below you can see the confirmation link. You need to click it.

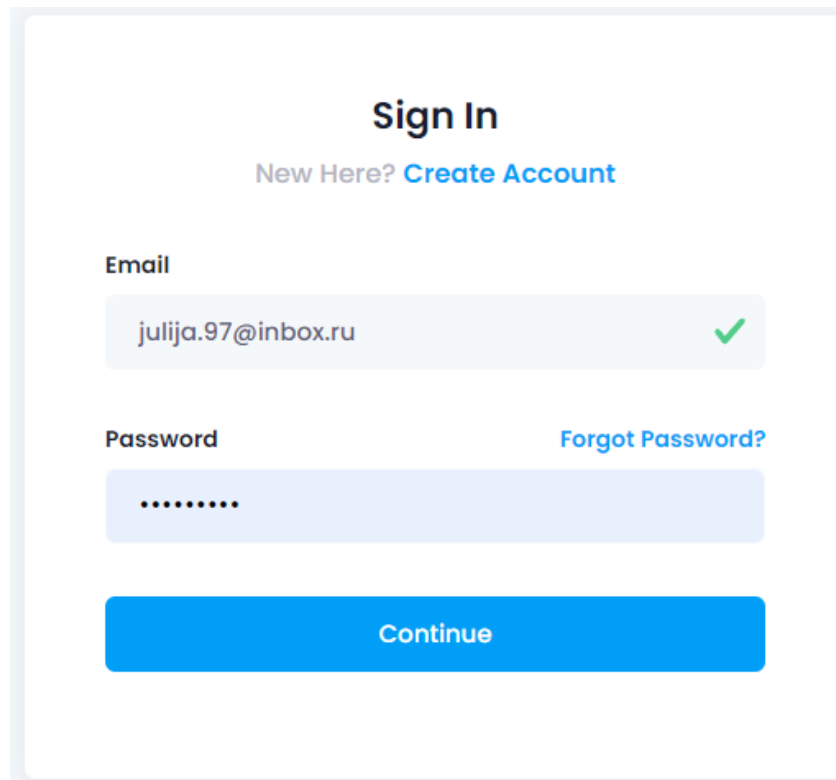

After you click on the link, you need to come up with a password. Enter it, then confirm. Then press the "Submit" button.

A screenshot of a web form titled "Set new password". At the top, it asks "Already have reset your password? [Sign in here](#)". The form contains two input fields: "New Password" and "Confirm new Password". Below the "New Password" field, there is a password strength requirement: "Password must include a minimum of 8 character, both upper and lower case, and at least one number". At the bottom of the form, there is a checkbox labeled "I Agree [Terms and conditions](#)". A blue "Submit" button is located at the bottom center of the form.

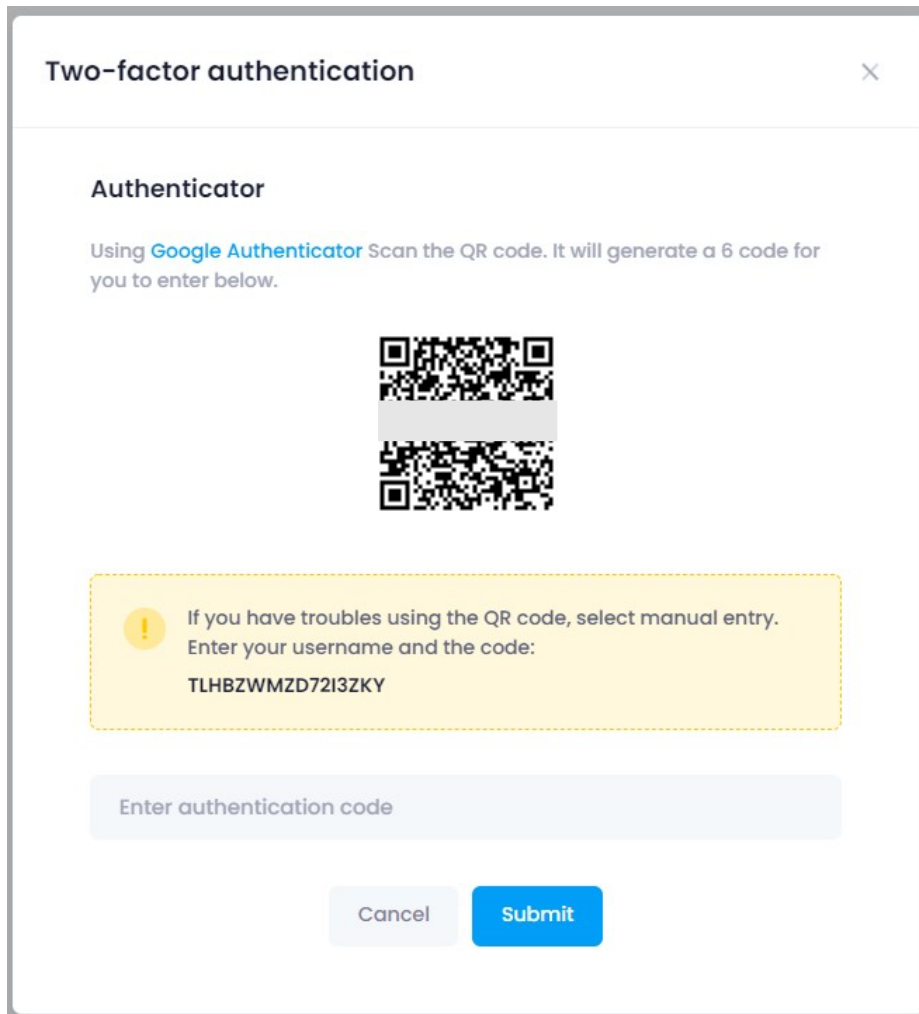

Now you see the text that your password has been successfully created. Press the "Homepage" button.

Now you are on the login page. To continue your registration, you need to sign in to your account. Enter your login and password. Then press "Enter" button.

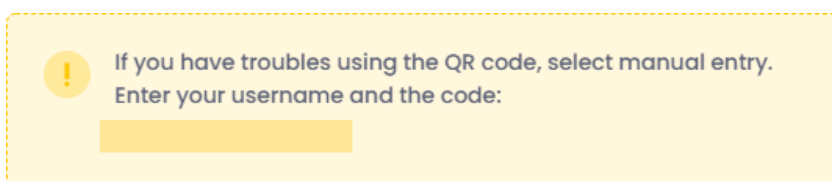

A screenshot of a "Sign In" form. The title "Sign In" is centered at the top in a bold, dark grey font. Below the title, the text "New Here? [Create Account](#)" is displayed, with "Create Account" in blue. The form contains two input fields: "Email" with the value "julija.97@inbox.ru" and a green checkmark icon to its right, and "Password" with a masked password "....." and a blue link "Forgot Password?" to its right. At the bottom of the form is a large blue button with the text "Continue" in white.

When you enter login (email) and password, you must complete Google Verification.

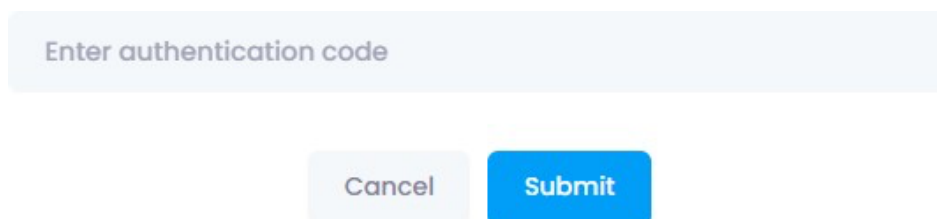

At the beginning, you need to download the Google Authenticator application. Next, open the application and click on the "multicolored plus" at the bottom right. Now we have two options:

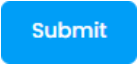

1. Scan the QR code.
2. Enter the key.

Both options are possible here. Now the code, that you have to enter in the field, will appear in the application.

Enter it quickly because the code changes. After the code changes, the old one is no longer valid. After you did all this, press the button

When you have entered your personal account, you will have access only to some features, such as the dashboard. To get full access, you must complete the registration with identity verification. To do this, click on any section that is not available yet, for example, one of the wallet sections. You'll see a widget like this. Now you can continue with the mobile version. This is made for your convenience because the camera on the phone has better quality, therefore it will be much easier to complete your identity confirmation on this device. Usually, cameras on the desktop have low quality, and thus there may arise problems with scanning and photo. However, this is not necessary, you can continue verification on your desktop. To continue with the desktop, click "Continue". To open the website on your mobile device quickly, you need to scan the QR code using your phone.

### Verification

Please verify your identity and address to get access to the Wallets and Merchants sections.

Step 1:  
Identity Verification.  
We strongly recommended continue verification on your mobile device.  
To continue on the mobile device please scan the QR-code

If you want to continue on the desktop version or if you are on the mobile device already please click here

# Step 1

On the next page you will find a text about consent for your personal data processing. Be sure to read.

1. Registration of the application

2. Data confirmation

3. Identity identification

## Consent for personal data processing

In order to obtain the service from the Service Provider, with this consent I express my agreement that UAB "Ondato" will receive and manage my personal data, including my biometric data, gained from remote identification of my personal identity by taking and/or filming live image of my face, my person's identity or the document used to identify it and/or their image and the personal data contained in them and/or check in the population registry: image of my face, name, surname, nationality, gender, personal code, date of birth, numbers of the document that is being used, date of issue and validity, my signature and the transfer of such data to the Service Provider. I also note that I am informed that the controller of my personal data, including my biometric data, specified in this consent is the Service Provider and UAB "Ondato" will process my personal data only until the remote identification procedure is over and the results will be transferred to the Service Provider. I also declare that I am informed and agree that my personal data obtained for remote identification and its purposes may be stored by UAB "Ondato" for longer period of time than it takes for the identification to be completed or transmission of its results to the Service Provider, but only at the request of the Service Provider or UAB Ondato's contractual obligation to the Service Provider, but not longer than it is defined in the Contract that was signed between UAB "Ondato" and Service Provider or requested by the Service Provider. I am informed, that I can submit request regarding my personal data for more detailed information at [info@ondato.com](mailto:info@ondato.com). Hereby I declare and confirm, that all the personal data I will provide for remote identification of my personal identity purpose, are correct and accurate, and the document, which I will use for this purpose is not false and valid.

DISAGREE

I AGREE

After reading, click the

I AGREE

In case you click

DISAGREE

An error will come out and access will be denied.

Permissions denied

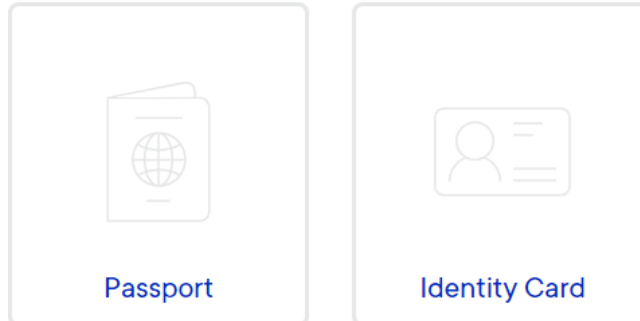

You must agree with Terms and Conditions in order to proceed identification process

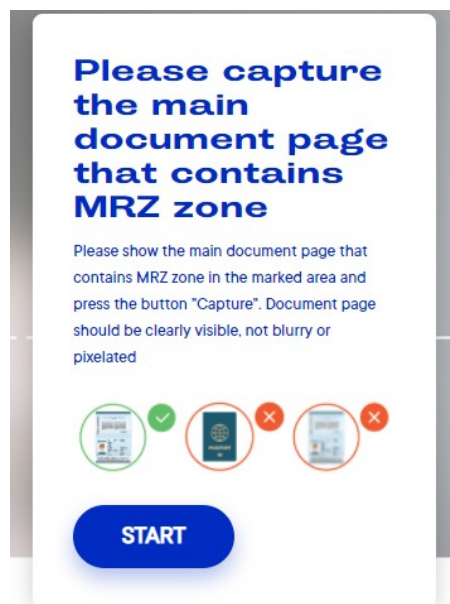

To continue, we need your consent to process your personal data.

Now you need to select the type of document you can provide as confirmation of your identity.

## Select the document

After selecting a document you will see conditions, which must match. the photo of the document.

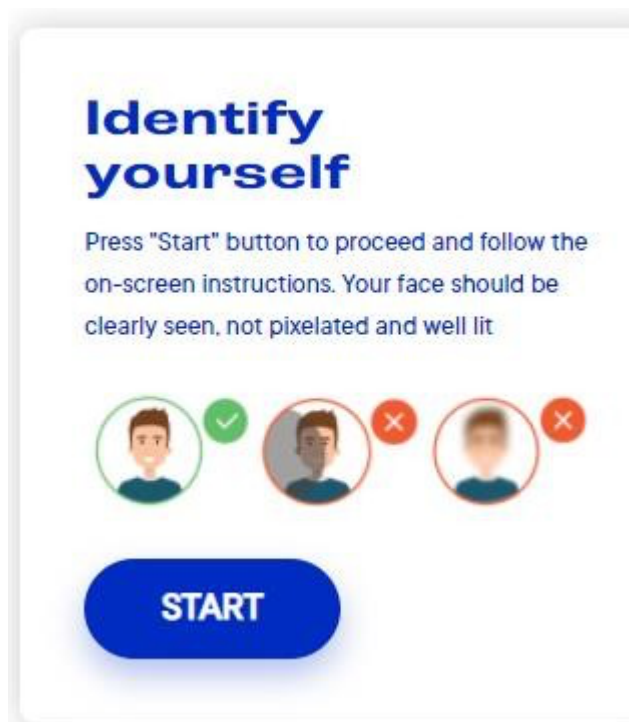

Press the "Start" button and prepare to take a photo of your identity card or passport. Your document must be readable! When you have found a good position for the document, click the "Capture" button. After that, you will see your picture. You need to evaluate it and if something does not match the required conditions, redo it. If everything is fine, then continue.

Processing please wait

The processing may take a couple of minutes.

When the data processing is complete, you have to scan your face. Read the identification recommendations

Press the «Start» button.

Now you need to take a picture. You have to give permission for using the camera on your device.

Starting Camera...

When the camera starts scanning, you must follow the on-screen instructions. After your face has been scanned and the data processing begins, it is very important not to close the browser window or switch to other websites, otherwise, you will have to start this step again.

Now the first step is complete.

## Step 2

Once the first step is complete, you must complete the second step. You can complete it right after the first step or you need click on one of the still closed sections.

This picture shows that the first step has already been successfully completed.

### Verification ×

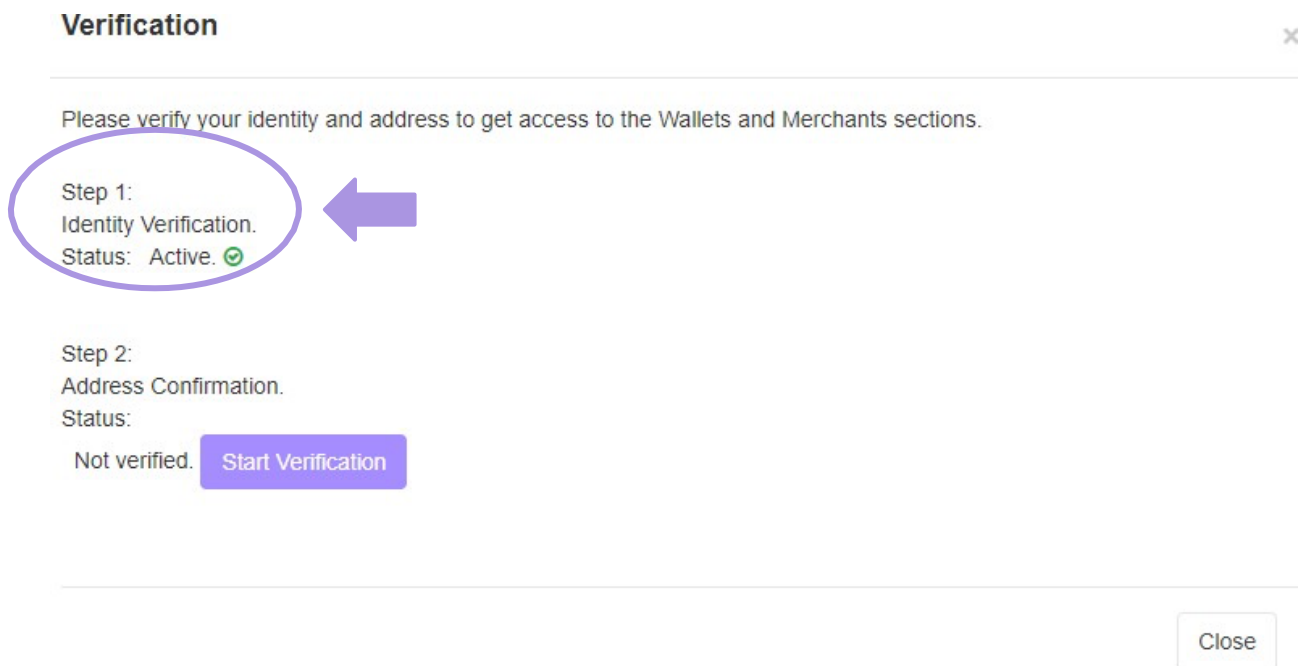

---

Please verify your identity and address to get access to the Wallets and Merchants sections.

Step 1:  
Identity Verification.  
Status: Active. 

Step 2:  
Address Confirmation.  
Status:  
Not verified. [Start Verification](#)

[Close](#)

However, it also may be possible that the first-step data has not been updated and the status has not changed to the "active" yet. In this case, you can still start the second step.
